education

2026-2028 **HARVARD BUSINESS SCHOOL** **BOSTON, MA**
HARVARD SCHOOL OF ENGINEERING AND APPLIED SCIENCES
Candidate for Master in Business Administration and Master in Science. MS/MBA: Engineering Sciences Program, May 2028. Member of the Tech, Fintech, and Latin America Clubs. Awarded the Dupré and Nunnelly Fellowship.

2018-2019 **PONTIFICIA UNIVERSIDAD CATOLICA DEL PERU** **LIMA, PERU**
Master of Science degree, *summa cum laude*, in Statistics. Awarded a full-tuition scholarship for academic excellence. Presented thesis at the Latin American Conference on Statistical Computing (LACSC 2020).

2012-2016 **PONTIFICIA UNIVERSIDAD CATOLICA DEL PERU** **LIMA, PERU**
Bachelor of Science degree, *magna cum laude*, in Physics. Founder and first President of the Physics Student Association. Awarded the PAIN-PUCP research grant.

experience

2022-2026 **DUPPLA** **BOGOTA, COLOMBIA**
LatAm Series A fintech; first employee. Subject of a Harvard Business School case study on global entrepreneurship.

2023-2026 **Chief Technology Officer**

- ***Fundraising and diligence:*** Led technical due diligence with investors, securing a $2.5M seed round and a subsequent $12M Series A; set technical strategy and scaled engineering from 1 to 7.
- ***Lending capacity:*** Partnered with legal to build an AI document validation engine, compressing review from 40 to 3 hours, lifting deal throughput 10x and expanding financing capacity from 5 to 20 homes within a month.
- ***Customer analysis:*** Interviewed customers and identified a financial literacy gap; launched “Cotizador,” an interactive loan simulator, cutting inquiry tickets 70% and lifting onboarding NPS from 11 to 56.

2022-2023 **Lead Data Engineer**

- ***Asset pricing and reporting:*** Partnered with finance to rebuild asset pricing and investor reporting from a 3-day manual process to real time; the added transparency attracted $1M+ in new funding and saved ~50 hours of manual work a month.
- ***Portfolio scale:*** Designed Google Cloud infrastructure for high-volume processing under tight budget constraints, supporting portfolio growth to $25M+ in real estate assets while saving $70K annually.

2022-2024 **PONTIFICIA UNIVERSIDAD CATOLICA DEL PERU** **LIMA, PERU**
Adjunct Professor (part-time)

- ***Course design:*** Created a Computational Statistics course in R and Python for 200+ undergraduate industrial engineers, teaching statistical modeling through credit card, loan, and mortgage applications.
- ***Teaching results:*** Delivered sections averaging 15.45/20 against a 13.41/20 course average, earning the faculty's top NPS of 98.

2020-2022 **RAPPIBANK** **LIMA, PERU**
Founding team member at the digital bank built by Rappi, LatAm's largest super-app, and Interbank.
Lead Data Engineer

- ***Credit risk modeling:*** Built RappiBank's first credit risk model, increasing approvals for underserved customers 5%, on a 6TB data platform integrated with Rappi and Interbank teams; scaled engineering from 1 to 3.
- ***Fraud detection:*** Deployed PyTorch deep learning models halving inference latency to 100ms, reducing fraud losses 8% and lowering false positives 25%+.

2017-2020 **INTERBANK** **LIMA, PERU**
Peru's third-largest bank.
Data Scientist

certifications Anthropic – Claude Certified Architect; Snowflake – SnowPro Core

technical skills Python, R, SQL, PyTorch, statistical modeling, Snowflake, Databricks, Airflow, dbt, GCP, AWS, TypeScript

personal Fluent in English and Spanish. Rock climber (Grade 5.10c; climbed in 7 parks in Peru, Colombia, and Yosemite), hiker (Inka Trail, Huayhuash trek, and Santa Cruz trek in Peru, Torres del Paine in Patagonia).
